

- 16) 3A fuse for power supply of gas piezoelectric firing device (fridge, kitchen, etc.) and boiler's anti-ice gas valve, which is directly connected to the leisure battery (B2).
- 17) 30A fuse for 12V AES and 3 way function fridge power supply. The 3 way function fridge automatically switches off when engine is off.
- 18) 25A fuse for electric step power supply, which is connected directly to leisure battery (B2).
- 19) AES fridge connection; It is a bridge, which excludes the 3 way function fridge and is used to connect the AES fridge directly to the B2.
- 20) 3A fuse to protect the OUT D+ simulated exit.
- 21) N.C.
- 22) N.C.

## CONNECTIONS

<p><b>23</b> WHITE</p> 	<p><b>USERS</b></p> <ol style="list-style-type: none"> <li>+ exit "AUX", it depends on the main button</li> <li>+ exit lights through pushbutton.</li> <li>+ exit gas valve (direct B2)</li> <li>+ exit anti-ice resistor "Eis-ex", it depends on the "EIS-EX" button</li> <li>+ exit engine heating, it depends on the engine's heating button</li> <li>+ exit "DIR1" (direct B2)</li> </ol>	<p><b>FUSE (rif.)</b></p> <p>7 6 5 2 3 4</p>
